Pupil Premium Spending Review 2019/20

Review of Impact 2019/2020

At Our Lady of Compassion Primary School has reviewed our spending and impact on our pupil premium children. We feel that, with the new strategy of spending, the money has been effectively used to provide a range of additional support for our children and these interventions have had a significant impact on children's attainment.

One of the key reasons for Pupil Premium Grant is to 'raise the attainment of disadvantaged pupils of all abilities to reach their potential'.

<https://www.gov.uk/government/publications/pupil-premium-allocations-and-conditions-of-grant-2019-to-2020/pupil-premium-conditions-of-grant-2019-to-2020#rates-for-eligible-pupils>

Reviewing the data in KS2, we are delighted with our results. They showed that the school has stayed strong in terms of academic achievement, staying well above National Averages across all subjects, especially Maths. Comparing our KS2 pupil premium results to the national overall results of 2020, we are performing very strongly compared nationally to non-pupil premium children and the direct comparison to pupil children nationally and have done for the past 3 years. The results reflect the hard work of staff, excellent partnership working with parents and a determination to ensure that EVERY child succeeds.

Our key objective in using the Pupil Premium Grant is to narrow the gap between the Pupil Premium group and those not eligible for FSM. As a school we have a track record of ensuring that pupils make good or better progress. We have analysed the current internal data and have identified children who we know are target children in each subject and track and adapt their interventions to help each child reach their potential.

Impact of PPG Data 2018/2019

- Children have performed well for Year 6 SATs over a 3-year average.
